QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
(Exact name of registrant as specified in its charter)

Cayman Islands (State or other jurisdiction of incorporation or organization)	001-39666 (Commission File Number)	98-1547348 (I.R.S. Employer Identification Number)
200 Crescent Court, 19 th Floor Dallas, Texas (Address of principal executive offices)		75201 (Zip Code)

Registrant's telephone number, including area code: (469) 398-2200

Not Applicable
(Former name or former address, if changed since last report)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input checked="" type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on an attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one Class A Ordinary Share, \$0.0001 par value, and one-half of one redeemable warrant	BOAC.U	The New York Stock Exchange
Class A Ordinary Shares included as part of the units Redeemable warrants included as part of the units, each whole warrant exercisable for one Class A Ordinary Share at an exercise price of \$11.50	BOAC BOAC WS	The New York Stock Exchange The New York Stock Exchange

As of November 19, 2021, 60,750,000 Class A ordinary shares, par value \$0.0001 per share, and 15,187,500 Class B ordinary shares, par value \$0.0001 per share, were issued and outstanding.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Note 1 — Description of Organization and Business Operations

Organization and General

Bluescape Opportunities Acquisition Corp. (the “**Company**”) was incorporated in the Cayman Islands on July 9, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “**Business Combination**”). The Company is an early stage and “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “**Securities Act**”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “**JOBS Act**”).

As of September 30, 2021, the Company had not commenced any operations. All activity for the period from July 9, 2020 (inception) through September 30, 2021 was related to the Company’s formation, the initial public offering (the “**Initial Public Offering**”) further described below, and, since the Initial Public Offering, the search for a prospective Business Combination. The Company will not generate any operating revenues until after completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income earned on investments on cash and cash equivalents in the Trust Account (as defined below).

On July 13, 2020, Bluescape Sponsor LLC (the “**Sponsor**”) purchased 20,125,000 shares of the Company’s Class B ordinary shares (the “**Founder Shares**”) for an aggregate price of \$25,000. On October 23, 2020, the Sponsor surrendered 3,593,750 Founder Shares, resulting in an aggregate of 16,531,250 Founder Shares. As a result of the underwriters’ election to partially exercise their over-allotment option, 1,343,750 additional Founder Shares were forfeited, resulting 15,187,500 Founder Shares outstanding as of December 31, 2020 and September 30, 2021. The 15,187,500 Founder Shares outstanding will automatically convert into Class A ordinary shares upon consummation of a Business Combination on a one-for-one basis, subject to certain adjustments, as described in Note 8.

The registration statement for the Company’s Public Offering became effective on October 27, 2020. On October 30, 2020, the Company consummated the Initial Public Offering of 57,500,000 units (the “**Units**” and, with respect to the Class A ordinary shares included in the Units sold, the “**Public Shares**”), at \$10.00 per Unit, generating gross proceeds of \$575,000,000. Subsequently, on November 12, 2020, the Company consummated the closing of the sale of 3,250,000 additional units at a price of \$10.00 per unit upon receiving notice of the underwriters’ election to partially exercise their over-allotment option, generating additional gross proceeds of \$32,500,000 to the Company and resulting in an aggregate of 60,750,000 outstanding Units (Note 4). Each unit consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole public warrant entitles the holder to purchase one ordinary share at a price of \$11.50 per share.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 13,500,000 warrants (the “**Private Placement Warrants**”) at a price of \$1.00 per Private Placement Warrant in a private placement to the **Sponsor** and an investment fund managed by Zimmer Partners, LP (“**Zimmer Entity**”), generating gross proceeds of \$13,500,000. In connection with the November 12, 2020 exercise of the underwriters’ over-allotment option, the Company consummated the private placement of an additional 650,000 warrants, at a purchase price of \$1.00 per private placement warrant, to Bluescape Sponsor LLC and an investment fund managed by Zimmer Partners, LP, generating gross proceeds of \$650,000 and resulting in an aggregate of 14,150,000 Private Placement Warrants (Note 5).

Aggregate transaction costs related to the Public Offering and underwriters’ over-allotment amounted to \$33,103,735, consisting of \$12,150,000 of underwriting fees, \$21,262,500 of deferred underwriting fees, \$906,235 of other offering costs, and an expense reimbursement of \$1,215,000.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Trust Account and Initial Business Combination

Following the closing of the Initial Public Offering on October 30, 2020 and the subsequent partial exercise of the underwriters' over-allotment exercise, an amount of \$607,500,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants, was placed in a segregated trust account (the "Trust Account") and invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or in any open-ended investment company that holds itself out as a money market fund meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds in the Trust Account to the Company's shareholders, as described below.

Substantially all of the net proceeds of the Public Offering are intended to be generally applied toward consummating an initial Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully and the Company must complete an initial Business Combination with one or more target businesses that together have a fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting discounts and commissions and taxes payable on interest earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

Other than the withdrawal of interest to pay franchise and income taxes (less up to \$100,000 to pay dissolution expenses), none of the funds held in the Trust Account will be released until the earliest of: (i) the completion of the initial Business Combination, (ii) the redemption (liquidation) of public shares if the Company has not consummated an initial Business Combination by October 27, 2022, subject to applicable law, or (iii) the redemption of public shares properly submitted in connection with a shareholder vote to approve an amendment to the Company's amended and restated memorandum and articles of association (A) that would modify the substance or timing of the Company's obligation to provide holders of Class A ordinary shares the right to have their shares redeemed in connection with the initial Business Combination or to redeem 100% of public shares if the Company does not complete the initial Business Combination by October 27, 2022 or (B) with respect to any other provision relating to the rights of holders of Class A ordinary shares. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company.

The Company, after signing a definitive agreement for an initial Business Combination, will either (i) seek shareholder approval of the initial Business Combination at a meeting called for such purpose in connection with which shareholders may seek to redeem their Public Shares, regardless of whether they vote for or against the initial Business Combination, for cash equal to their pro rata share of the aggregate amount on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest not previously released to the Company to pay its franchise and income taxes, or (ii) provide shareholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a shareholder vote) for an amount in cash equal to their pro rata share of the aggregate amount on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest not previously released to the Company to pay income taxes. The per-share amount to be distributed to public shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The decision as to whether the Company will seek shareholder approval of the initial Business Combination or will allow shareholders to sell their Public Shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek shareholder approval, unless a vote is required by law or under NYSE rules. If the Company seeks shareholder approval, it will complete its initial Business Combination only if a majority of the outstanding shares of ordinary shares voted are voted in favor of the initial Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its Public Shares and the related initial Business Combination, and instead may search for an alternate initial Business Combination. If a shareholder vote is not required by law or stock exchange requirements and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the “**Amended and Restated Certificate of Incorporation**”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transaction is required by law, or the Company decides to obtain shareholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks shareholder approval in connection with a Business Combination, the Company’s Sponsor and its permitted transferees will agree to vote their Founder Shares (as defined in Note 6) and any Public Shares purchased during or after the Public Offering in favor of approving a Business Combination. Additionally, each public shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction.

If the Company seeks shareholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Amended and Restated Certificate of Incorporation provides that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The Company will have until October 27, 2022 (the “**Combination Window**”) to complete a Business Combination. If the Company is unable to complete a Business Combination within the Combination Window, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay the Company’s franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining shareholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. The Sponsor and the Company’s independent directors that hold Founder Shares have agreed (a) to waive their redemption rights with respect to Founder Shares and Public Shares held in connection with the completion of a Business Combination, (b) to waive their rights to liquidating distributions from the Trust Account with respect to Founder Shares if the Company fails to consummate a Business Combination within the Combination Window (as defined below) and (c) not to propose an amendment to the Company’s Amended and Restated Certificate of Incorporation that would affect the substance or timing of the Company’s obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the public shareholders with the opportunity to redeem their shares in conjunction with any such amendment. However, if the Sponsor or any of the Company’s directors, officers or affiliates acquires shares of Class A ordinary shares in or after the Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the initial Business Combination within the prescribed time period. None of the Company’s independent directors hold any Public Shares.

[Table of Contents](#)

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 7) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Window and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Public Offering price of \$10.00 per Unit.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party (other than the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or similar agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) the amount per Public Share held in the Trust Account as of the liquidation of the Trust Account, if less than \$10.00 per Public Shares due to reductions in the value of the trust will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account or to any claims under the Company's indemnity of the underwriters of the Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "**Securities Act**"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Liquidity

As of September 30, 2021, the Company had \$1,562,676 in its operating bank account for working capital. Based on the foregoing, management believes that the Company will have sufficient working capital to meet the Company's needs through the earlier of the consummation of an initial Business Combination or 12 months from the date of issuance of these financials. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the initial Business Combination.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

[Table of Contents](#)

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Note 2 - Restatement of Previously Issued Financial Statements

In connection with the preparation of the Company's financial statements as of September 30, 2021, management identified errors made in its historical financial statements where the Company improperly classified some of its Class A common stock subject to possible redemption. In accordance with ASC 480-10-S99, redemption provisions not solely within the control of the Company would require common stock subject to redemption to be classified outside of permanent equity. The Company had previously classified some Class A common stock shares in permanent equity. Management concluded that the errors were material to the previously issued financial statements, and elected to correct the errors in connection with the preparation of the Company's financial statements as of and for the periods ended September 30, 2021. The Company previously determined the Class A ordinary shares subject to possible redemption cannot result in net tangible assets being less than \$5,000,001. However, management has since determined that all Class A ordinary shares issued during the Initial Public Offering and pursuant to the exercise of the underwriters' overallotment can be redeemed subject to the occurrence of future events considered outside the Company's control. Therefore, management concluded that temporary equity should include all Class A ordinary shares subject as temporary equity subject to possible redemption. As a result, management has noted a classification error related to temporary equity and permanent equity. This resulted in an adjustment to the initial carrying value of the Class A ordinary shares subject to possible redemption with the offset recorded to additional paid-in capital (to the extent available), accumulated deficit and Class A ordinary shares.

In connection with the correction of the presentation for the Class A ordinary shares subject to redemption the Company's management and the audit committee of the Company's Board of Directors concluded that it is appropriate to restate the Company's previously issued audited financial statements as for the period from July 9, 2020 (inception) through June 30, 2021, as previously reported. The restated classification and reported values are included in the financial statements herein.

There has been no change in the Company's total assets, liabilities or operating results.

The following tables summarize the effect of the restatement on each financial statement line item as of the dates, and for the period, indicated:

	As Previously Reported	Adjustment	As Restated
Balance Sheet as of October 30, 2020 (unaudited)

Note 3 — Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statement of the Company are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and for interim financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP. In the opinion of management, the unaudited financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results for the periods presented. Operating results for the three and nine months ended September 30, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, as modified by the JOBS Act, and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents as of September 30, 2021 or December 31, 2020.

Net Income (Loss) Per Ordinary Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, *“Earnings Per Share.”* Net income (loss) per share is computed by dividing net income (loss) by the weighted-average number of shares of ordinary shares outstanding during the period. The Company applies the two-class method in calculating earnings per share. Remeasurement adjustments associated with the redeemable shares of Class ordinary shares are excluded from earnings per share as the redemption value approximates fair value. The Company has not considered the effect of the warrants sold in the initial Public Offering and Private Placement in the calculation of diluted income or loss per share, since the inclusion of such warrants would be anti-dilutive.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of cash accounts in a financial institution which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. As of September 30, 2021, the Company has not experienced losses on these accounts.

Investments Held in Trust Account

The Company’s portfolio of investments held in Trust Account are comprised solely of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less, classified as trading securities. Trading securities are presented on the balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities is included in gain on marketable securities (net), dividends and interest, held in Trust Account in the accompanying statement of operations. The fair value for trading securities is determined using quoted market prices in active markets. As of September 30, 2021, the Company’s portfolio of investments held in Trust Account are comprised solely of money market funds.

Fair Value of Financial Instruments

Fair value is defined under FASB ASC 820, *“Fair Value Measurements and Disclosures,”* as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Offering Costs

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (“SAB”) Topic 5A - Expenses of Offering. Offering costs consist principally of professional and registration fees incurred through the date of the offering. Offering costs are charged to the statement of operations and temporary equity based on the relative value of the Class A common stock and the Public Warrants to the proceeds received from the Units sold upon the completion of the IPO. Accordingly, as of December 31, 2020, the Company had recognized aggregate offering costs of \$33,103,735, consisting of \$12,150,000 of underwriting fees, \$21,262,500 of deferred underwriting fees, \$906,235 of other offering costs, and an expense reimbursement of \$1,215,000, of which \$2,006,624 was immediately expensed, and the remaining was charged to temporary equity.

Warrant Liabilities

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant’s specific terms and applicable authoritative guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 480, Distinguishing Liabilities from Equity (“ASC 480”) and ASC 815, Derivatives and Hedging (“ASC 815”). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company’s own common stock, among other conditions for equity classification. This assessment is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

In accordance with Accounting Standards Codification (“ASC”) 815-40, Derivatives and Hedging—Contracts in Entity’s Own Equity (“ASC 815”), the warrants do not meet the criteria for equity classification and must be recorded as liabilities. The Public Warrants and Private Placement Warrants are not indexed to the Company’s own stock and therefore are accounted for as liabilities and, as the warrants meet the definition of a derivative as contemplated in ASC 815, the Warrants are measured at fair value at inception and at each reporting date in accordance with ASC 820, *Fair Value Measurement*, with changes in fair value recognized in the Statement of Operations in the period of change.

The Company’s warrant agreements, dated as of October 27, 2020, between the Company and Continental Stock Transfer & Trust Company, a New York corporation, as warrant agent (the “Warrant Agreement”), include settlement terms and provision related to certain tender offers following a business combination. In consideration of the guidance in Accounting Standards Codification (“ASC”) 815-40, Derivatives and Hedging — Contracts in Entity’s Own Equity, the Company has concluded that such provisions in the Warrant Agreement that relate to certain tender or exchange offers precludes the Warrants from being accounted for as components of equity. As the Warrants meet the definition of a derivative as contemplated in ASC 815, the Warrants are recorded as derivative liabilities on the balance sheet and measured at fair value at each reporting date in accordance with ASC 820, Fair Value Measurement, with changes in fair value recognized in the statement of operations in the period of change. The Public Warrants and Private Placement Warrants are not indexed to the Company’s own stock and therefore are accounted for as liabilities and, as the warrants meet the definition of a derivative as contemplated in ASC 815 *Fair Value Measurement*, with changes in fair value recognized in the Statement of Operations in the period of change.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Class A Ordinary Shares Subject to Possible Redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480 “*Distinguishing Liabilities from Equity*.” Under this guidance, shares of Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Shares of conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) are classified as temporary equity. The Company’s Class A ordinary shares features certain redemption rights that are considered to be outside of the Company’s control and subject to the occurrence of uncertain future events.

As discussed in Note 1, all of the 60,750,000 Public Shares contain a redemption feature which allows for the redemption of Class A ordinary shares under the Company’s liquidation or tender offer/shareholder approval provisions. In accordance with FASB ASC 480, redemption provisions not solely within the control of the Company require the security to be classified outside of shareholders’ equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity’s equity instruments, are excluded from the provisions of FASB ASC 480. In the event of redemptions, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

Components of Equity

Upon the IPO, the Company issued Class A ordinary shares and Warrants. The Company allocated the proceeds received from the issuance using the with-and-without method. Under that method, the Company first allocated the proceeds to the Warrants based on their initial fair value measurement, and then allocated the remaining proceeds, net of underwriting discounts and offering costs, to the Class A ordinary shares.

At September 30, 2021, 60,750,000 shares of Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders’ equity section of the Company’s balance sheet.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, “*Income Taxes*.” Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense.

There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of September 30, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The Company is considered an exempted Cayman Islands Company as is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company’s tax provision was zero for the period presented.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Recent Accounting Standards

In August 2020, FASB issued Accounting Standards Update (“ASU”) 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company’s financial statements.

Note 4 — Public Offering

Pursuant to the Initial Public Offering, the Company sold 57,500,000 units at a price of \$10.00 per unit. Each Unit consists of one Class A ordinary share (the “**Ordinary Share**”), \$0.0001 par value, and one-half of one redeemable warrant (“**Public Warrant**”). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment (see Note 9).

The Company granted the underwriters a 45-day option to purchase up to 8,625,000 additional Units to cover any over-allotments at the initial public offering price less the underwriting discounts and commissions. On November 12, 2020, the Company consummated the closing of the sale of an additional, and final 3,250,000 units at a price of \$10.00 per unit upon receiving notice of the underwriters’ election to partially exercise their over-allotment option, generating additional gross proceeds of \$32,500,000 to the Company and resulting in an aggregate of 60,750,000 Units. Each Unit consists of one Ordinary Share and one-half of one redeemable Public Warrant. Each whole Public Warrant entitles the holder to purchase one Ordinary Share at a price of \$11.50 per share.

The Company paid an underwriting discount to the underwriters at the closing of the Initial Public Offering and upon the over-allotment option exercise, a portion of which will be deferred and payable upon the Company’s completion of a Business Combination. The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes its Business Combination.

Note 5 — Private Placement

Simultaneously with the closing of the Initial Public Offering, the Sponsor and the Zimmer Entity purchased, severally and not jointly, 13,500,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$13,500,000.

On November 12, 2020, simultaneously with the exercise of the over-allotment option, the Sponsor and the Zimmer Entity purchased, severally and not jointly, 650,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$650,000. Resulting in an aggregate of 14,150,000 Private Placement Warrants.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Each Private Placement Warrant is exercisable to purchase one share of Class A ordinary shares at a price of \$11.50 per share. There are no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants. The Private Placement Warrants are exercisable on a cashless basis and are non-redeemable (except as described under Redemption of Warrants when the price per Class A Ordinary Share equals or exceeds \$10.00) so long as they are held by the initial purchasers or their permitted transferees. The Sponsor, Zimmer Entity, and the Company's officers and directors have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the Business Combination.

Note 6 — Related Party Transactions

Founder Shares

On July 13, 2020, the Sponsor purchased 20,125,000 shares of the Company's Class B ordinary shares for an aggregate price of \$25,000. On October 23, 2020, the Sponsor surrendered 3,593,750 Founder Shares, resulting in an aggregate of 16,531,250 Founder Shares. Subsequently, as a result of the underwriters' election to partially exercise their over-allotment option, 1,343,750 additional Founder Shares were forfeited, resulting 15,187,500 Founder Shares outstanding. The 15,187,500 Founder Shares outstanding will automatically convert into Class A ordinary shares upon consummation of a Business Combination on a one-for-one basis, subject to certain adjustments, as described in Note 8.

In connection with the issuance of the Founder Shares, the Sponsor has paid third parties directly for costs associated with formation of the Company and issuance of the Founder Shares. The Sponsor and the Company's independent directors have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination or (B) the date on which the Company completes a liquidation, merger, stock exchange, reorganization or similar transaction after a Business Combination that results in all of the Company's shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-division, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, the Founder Shares will be released from the lockup.

Promissory Note – Related Party

On July 13, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Public Offering pursuant to an unsecured promissory note (the "**Promissory Note**"). This Promissory Note was non-interest bearing and payable on the earlier of December 31, 2020 or the completion of the Public Offering. The outstanding balance under the Note of \$298,067 was repaid at the closing of the Initial Public Offering on October 30, 2020 and no outstanding balance remains as of September 30, 2021.

Administrative Support Agreement

Commencing on the effective date of the Public Offering, the Company agreed to pay the Sponsor a total of \$10,000 per month for office space, administrative and support services. Upon completion of the Business Combination or the Company's liquidation, the Company will cease paying such administrative support fees.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor, an affiliate of the Sponsor, or the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion up to \$1,500,000 of such Working Capital Loans may be convertible into warrants at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants.

Forward Purchase Agreements

The Company entered into a forward purchase agreement simultaneously with the closing of the Public Offering with the Sponsor providing for the purchase of up to 3,000,000 forward purchase units, and with the Zimmer Entity providing for the purchase of up to 27,000,000 forward purchase units, at a purchase price of \$10.00 per unit, in private placements to occur concurrently with the closing of our initial business combination collectively, the ("Forward Purchase Agreements"). Participation by the Forward Purchase Agreement providers is discretionary. However, if requested by the Company, and approved by Zimmer Partners' investment committee, the proceeds from the sale of forward purchase securities may be used as part of the consideration to the sellers in the initial business combination, expenses in connection with the initial business combination or for working capital in the post-transaction company.

Note 7 — Commitments and Contingencies

Registration Rights

The holders of the Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of Working Capital Loans, if any, (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and Warrants that may be issued upon conversion of Working Capital Loans and upon conversion of the Founder Shares) will be entitled to registration rights pursuant to a registration rights agreement to be signed concurrently with the Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the consummation of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Pursuant to the forward purchase agreements, the Company has agreed to use its reasonable best efforts (i) to file within 30 days after the closing of a Business Combination a registration statement with the SEC for a secondary offering of the forward purchase shares and the forward purchase warrants (and underlying Class A ordinary shares), (ii) to cause such registration statement to be declared effective promptly thereafter but in no event later than sixty (60) days after the initial filing, (iii) to maintain the effectiveness of such registration statement until the earliest of (A) the date on which the Sponsor, the Zimmer Entity or their respective assignees cease to hold the securities covered thereby and (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act and (iv) after such registration statement is declared effective, cause us to conduct firm commitment underwritten offerings, subject to certain limitations. In addition, the forward purchase agreements provide that these holders will have certain "piggy-back" registration rights to include their securities in other registration statements filed by the Company.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Underwriting Agreement

The underwriters were entitled to a cash underwriting discount of \$0.20 per unit related to the Initial Public Offering, or \$12,150,000 in the aggregate including the partially exercised underwriters' over-allotment option. In addition, the underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$21,262,500 in the aggregate including the partially exercised underwriters' over-allotment option. The deferred fee will be waived by the underwriters in the event that the Company does not complete a Business Combination, subject to the terms of the underwriting agreement.

Note 8 — Shareholders' Equity

Preferred Shares

The Company is authorized to issue 5,000,000 shares of preferred shares with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of September 30, 2021, there were no shares of preferred shares issued or outstanding.

Ordinary Shares

The Company is authorized to issue 500,000,000 shares of Class A ordinary shares with a par value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. As of September 30, 2021, there were 60,750,000 shares of Class A ordinary shares subject to possible redemption which are presented in temporary equity.

The Company is authorized to issue 50,000,000 Class B ordinary shares with a par value of \$0.0001 per share (the "Founder Shares"). Holders of Founder Shares are entitled to one vote for each share. As of September 30, 2021, there were 15,187,500 shares of Class B ordinary shares issued and outstanding. The Company originally issued 20,125,000 Founder Shares. On October 23, 2020, the Sponsor surrendered 3,593,750 Founder Shares, resulting in an aggregate of 16,531,250 Founder Shares. As a result of the underwriters' election to partially exercise their over-allotment option, 1,343,750 additional Founder Shares were forfeited, resulting 15,187,500 Founder Shares outstanding. The Founder Shares will automatically convert into Class A ordinary shares upon consummation of a Business Combination on a one-for-one basis. Holders of Founder Shares will have the right to elect all of the Company's directors prior to a Business Combination. Holders of Class A ordinary shares and Founder Shares will vote together as a single class on all other matters submitted to a vote of shareholders except as required by law.

The Founder Shares will automatically convert into Class A ordinary shares at the time of a Business Combination on a one-for-one basis, subject to adjustment. In the case that additional Class A ordinary shares, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in the Public Offering and related to the closing of a Business Combination, the ratio at which Founder Shares shall convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Founder Shares agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all ordinary shares outstanding upon the completion of the Public Offering plus all Class A ordinary shares and equity-linked securities issued or deemed issued in connection with a Business Combination, (including the Forward Purchase Shares, but not the Forward Purchase Warrants) excluding any shares or equity linked securities issued, or to be issued, to any seller in a Business Combination, any private placement equivalent warrants issued, or to be issued, to any seller in a Business Combination. In no event will the Founder Shares convert into Class A ordinary shares at a rate of less than one-to-one.

Note 9 — Net Income (Loss) Per Ordinary Share

Net income (loss) per ordinary share is computed by dividing net income (loss) by the weighted-average number of ordinary shares outstanding during the period. The Company has not considered the effect of the warrants sold in the initial Public Offering and Private Placement in the calculation of diluted net income (loss) per share, since the inclusion of such warrants would be anti-dilutive.

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	Three Months Ended September 30, 2021	Nine Months Ended September 30, 2021	For the Period From July 9, 2020 (Inception) Through September 30, 2020
Class A ordinary shares subject to possible redemption			
Numerator: Earnings allocable to Class A ordinary shares subject to possible redemption	\$ 12,026,798	\$ 34,874,734	—
Denominator: Weighted average ordinary shares subject to possible redemption outstanding	<u>60,750,000</u>	<u>60,750,000</u>	—
Basic and diluted net income per Class A ordinary share, subject to possible redemption	<u><u>\$ 0.20</u></u>	<u><u>\$ 0.57</u></u>	<u><u>\$ 0.00</u></u>
Class B non-redeemable ordinary shares			
Numerator: Net income (loss)	\$ 15,033,497	\$ 43,593,418	\$ (23,124)
Net income allocable to Class A ordinary shares subject to possible redemption	<u>(12,026,798)</u>	<u>(34,874,734)</u>	<u>—</u>
Non-redeemable Class B net income (loss)	<u><u>\$ 3,006,699</u></u>	<u><u>\$ 8,718,684</u></u>	<u><u>\$ (23,124)</u></u>
Denominator: Weighted average Class B non-redeemable ordinary shares	<u>15,187,500</u>	<u>15,187,500</u>	<u>14,375,000</u>
Basic and diluted net income per Class B non-redeemable ordinary share	<u><u>\$ 0.20</u></u>	<u><u>\$ 0.57</u></u>	<u><u>\$ 0.00</u></u>

Note 10 — Fair Value Measurements

The fair value of the Company's assets and liabilities which qualify as financial instruments approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature. As of September 30, 2021, the carrying values of cash and accounts payable approximate their fair values. Certain other assets and liabilities, such as those below, are measured at fair value on a recurring basis.

The following table presents information about the Company's assets and liabilities that are measured on a recurring basis as of September 30, 2021 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value:

Description	Quoted Prices In Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Assets:			
Investments held in Trust Account	\$ 607,771,527	—	—
Liabilities:			
Private Placement Warrants	—	—	\$ 14,433,000
Public Warrants	<u>\$ 30,678,750</u>	<u>—</u>	<u>—</u>

The measurement of the Public Warrants as of September 30, 2021 is classified as Level 1 due to the use of an observable market quote in an active market under the ticker BOAC.WS. There were no transfers into or out of Levels 2 or 3 during the three or nine months ended September 30, 2021.

[Table of Contents](#)

BLUESCAPE OPPORTUNITIES ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The Warrants were accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities on the balance sheet. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within change in fair value of warrant liabilities in the statement of operations.

The Private Warrants were initially valued using a Monte Carlo Simulation Model. The Monte Carlo model's primary input utilized in determining the fair value of the Private Warrants is the expected volatility of the ordinary shares. The expected volatility as of the IPO date was derived from observable public warrant pricing on comparable 'blank-check' companies without an identified target. The expected volatility as of subsequent valuation dates was implied from the Company's own public warrant pricing. A Monte Carlo simulation methodology was used in estimating the fair value of the public warrants for periods where no observable traded price was available, using the same expected volatility as was used in measuring the fair value of the Private Warrants. For periods subsequent to the detachment of the warrants from the Units, the close price of the public warrant price was used as the fair value as of each relevant date.

The key inputs into the Monte Carlo simulation model for the Private Placement Warrants were as follows:

Input	September 30,		December 31,	
	2021	2020	2021	2020
Risk-free interest rate		1.15 %		0.51 %
Expected term (years)		6		6
Expected volatility		17.50 %		16.00 %
Exercise price	\$ 11.50	\$ 11.50	\$ 11.50	\$ 11.50

The following table presents the changes in the fair value of warrant liabilities:

	Private Placement	Public	Warrant Liabilities
Fair value as of July 9, 2020 (inception)	\$ —	\$ —	\$ —
Changes in fair value	—	—	—
Fair value as of September 30, 2020	\$ —	\$ —	\$ —
Initial measurement on October 27, 2020 and November 12, 2020	17,071,000	36,390,000	53,461,000
Changes in fair value	11,229,000	24,360,000	35,589,000
Fair value as of December 31, 2020	<u>\$ 28,300,000</u>	<u>\$ 60,750,000</u>	<u>\$ 89,050,000</u>
	Private Placement	Public	Warrant Liabilities
Fair value as of January 1, 2021	\$ 28,300,000	\$ 60,750,000	\$ 89,050,000
Changes in fair value	(6,933,500)	(14,883,750)	(21,817,250)
Fair value as of March 31, 2021	\$ 21,366,500	\$ 45,866,250	\$ 67,232,750
Changes in fair value	(2,122,500)	(4,860,000)	(6,982,500)
Fair value as of June 30, 2021	\$ 19,244,000	\$ 41,006,250	\$ 60,250,250
Changes in fair value	(4,811,000)	(10,327,500)	(15,138,500)
Fair value as of September 30, 2021	<u>\$ 14,433,000</u>	<u>\$ 30,678,750</u>	<u>\$ 45,111,750</u>

Note 11 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date and through the date that the financial statements were issued. The Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

References to the “Company,” “Bluescape Opportunities Acquisition Corp.,” “our,” “us” or “we” refer to Bluescape Opportunities Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other U.S. Securities and Exchange Commission (“SEC”) filings.

Overview

We are a blank check company incorporated as a Cayman Islands exempted company on July 9, 2020 for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar Business Combination with one or more businesses that we have not yet identified. Although we are not limited to a particular industry or geographic region for purposes of consummating a Business Combination, we intend to focus on businesses that have sound fundamentals but that have the opportunity for substantial performance enhancement through a combination of sharpening of strategic focus, more disciplined capital allocation, capital structure improvements, rationalization of cost structure, and enhanced management skillset. Our sponsor is Bluescape Sponsor LLC, a Delaware limited liability company.

We consummated our Initial Public Offering on October 30, 2020 and our underwriters partially exercised their Over-Allotment Option on November 12, 2020. We also entered into Forward Purchase Agreements simultaneously with the closing of the Initial Public Offering with our Sponsor and with the Zimmer Entity which provide for the purchase of additional forward purchase units in private placements to occur concurrently with the closing of our initial Business Combination. If we are unable to complete an initial Business Combination by October 27, 2022, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay the Company’s franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining shareholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

Results of Operations

Our activity from January 1, 2021 through September 30, 2021 has been limited to the search for a prospective initial Business Combination. We will not generate any operating revenues until the closing and completion of our Initial Business Combination. However, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended September 30, 2021, we had net income of \$15,033,497, which consisted of \$27,703 in unrealized gain from the Trust Account, offset by \$132,706 in general and administrative costs, but primarily reflecting a non-cash gain of \$15,138,500 from the change in fair value of Warrant liabilities.

[Table of Contents](#)

For the nine months ended September 30, 2021, we had net income of \$43,593,418, which consisted of \$169,007 in investment income and unrealized gain from the Trust Account, offset by \$513,839 in general and administrative costs, but primarily reflecting a non-cash gain of \$43,938,250 from the change in fair value of Warrant liabilities.

Liquidity and Capital Resources

As of September 30, 2021, we had approximately \$1.6 million in our operating bank account for working capital.

Subsequent to the consummation of the Initial Public Offering and the Private Placement Warrants, our liquidity has been satisfied through the proceeds from the consummation of the Private Placement not held in the Trust Account of approximately \$2.0 million as well as an expense reimbursement of approximately \$1.2 million. In addition, in order to finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of our Sponsor, or certain of our officers and directors may, but are not obligated to, provide the Company Working Capital Loans. As of September 30, 2021, there were no amounts outstanding under any Working Capital Loans.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable and deferred underwriting commissions), to complete our initial Business Combination. We may withdraw income earned on investments (if any) to pay our income taxes, if any. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Based on the foregoing, management believes that we will have sufficient working capital and borrowing capacity from our Sponsor or an affiliate of our Sponsor, or certain of our officers and directors to meet our needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, we will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Related Party Transactions

Founder Shares

On July 13, 2020, our sponsor paid \$25,000, to cover certain expenses on our behalf in consideration of 20,125,000 Class B ordinary shares, par value \$0.0001 (the “**Founder Shares**”). On October 23, 2020, our sponsor surrendered 3,593,750 shares, resulting in an aggregate of 16,531,250 Class B ordinary shares outstanding. As a result of the underwriters’ election to partially exercise their over-allotment option, 1,343,750 additional Founder Shares were forfeited, resulting 15,187,500 Founder Shares outstanding as of September 30, 2021. Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount contributed to the company by the number of founder shares issued. The Founder Shares are identical to the Class A ordinary shares included in the Units sold in the Initial Public Offering except that the Founder Shares automatically convert into shares of Class A ordinary shares at the time of our Initial Business Combination on a one-for-one basis, subject to adjustments and certain transfer restrictions, as described in more detail below. On October 27, 2020, the Sponsor transferred 15,000 Founder Shares to each of our independent director nominees, at the original per share purchase price. The Founder Shares will be worthless if we do not complete an initial Business Combination.

Our Sponsor has agreed, subject to limited exceptions, not to transfer, assign or sell any of its Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination or (B) the date on which the Company completes a liquidation, merger, stock exchange, reorganization or similar transaction after a Business Combination that results in all of the Company’s shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-division, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-day trading period commencing at least 150 days after a Business Combination, the Founder Shares will be released from the lockup.

Private Placement Warrants

Simultaneous with the closing of our Initial Public Offering, we consummated the Private Placement of 13,500,000 warrants at a price of \$1.00 per Private Placement Warrant in a private placement to our Sponsor and an investment fund managed by Zimmer Partners L.P. Subsequently, on November 12, 2020, the Company received notice of the underwriters' election to partially exercise their over-allotment option and we consummated the private placement of an additional 650,000 warrants, at a purchase price of \$1.00 per private placement warrant, to our Sponsor and the Zimmer Entity for an aggregate of 14,150,000 warrants. Each whole Private Placement Warrant is exercisable for one whole share of our Class A ordinary shares at a price of \$11.50 per share. A portion of the purchase price of the Private Placement Warrants was added to the proceeds from the Initial Public Offering held in the Trust Account. If the Initial Business Combination is not completed by October 27, 2022, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

Our Sponsor and our officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

Forward Purchase Agreements

We also entered into a forward purchase agreement simultaneously with the closing of our Initial Public Offering with the Sponsor providing for the purchase of up to 3,000,000 forward purchase units, and with the Zimmer Entity providing for the purchase of up to 27,000,000 forward purchase units, at a purchase price of \$10.00 per unit, in private placements to occur concurrently with the closing of our initial Business Combination. Participation by the Forward Purchase Agreement providers is discretionary. However, if requested by the Company, the proceeds from the sale of forward purchase securities may be used as part of the consideration to the sellers in the initial Business Combination, expenses in connection with the initial Business Combination or for working capital in the post-transaction company. If we do not consummate an initial Business Combination within 24 months from the closing of our Initial Public Offering, the private placement warrants will expire worthless.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans, if any, will be entitled to registration rights (in the case of the Founder Shares, only after conversion of such shares to Class A ordinary shares) pursuant to a registration and shareholder rights agreement. These holders will be entitled to certain demand and "piggyback" registration rights. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until the termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Pursuant to the forward purchase agreements, we have agreed to use reasonable best efforts (i) to file within 30 days after the closing of a Business Combination a registration statement with the SEC for a secondary offering of the forward purchase shares and the forward purchase warrants (and underlying Class A ordinary shares), (ii) to cause such registration statement to be declared effective promptly thereafter but in no event later than sixty (60) days after the initial filing, (iii) to maintain the effectiveness of such registration statement until the earliest of (A) the date on which the Sponsor, the Zimmer Entity or their respective assignees cease to hold the securities covered thereby and (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act and (iv) after such registration statement is declared effective, cause us to conduct firm commitment underwritten offerings, subject to certain limitations. In addition, the forward purchase agreements provide that these holders will have certain "piggy-back" registration rights to include their securities in other registration statements filed by the Company.

Related Party Loans and Advances

Our Sponsor had agreed to loan us an aggregate of \$300,000 to cover expenses related to the Initial Public Offering pursuant to the terms of a related party promissory note (the "Note"). This loan was non-interest bearing and payable upon the completion of the Initial Public Offering. We fully repaid the Note on October 30, 2020.

Commitments and Contingencies

Underwriting Agreement

The underwriter was entitled to an underwriting discount of \$0.20 per unit, or \$11.5 million in the aggregate paid upon the closing of the Initial Public Offering and an incremental \$0.7 million paid upon the Over-Allotment Option exercise (for an aggregate of approximately \$12.2 million). In addition, \$0.35 per unit, or \$21.3 million in the aggregate will be payable to the underwriter for deferred underwriting commissions (inclusive of approximately \$1.1 million of incremental deferred commissions related to the Over-Allotment Exercise). The deferred underwriting commissions will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Administrative Support Agreement

We entered into an agreement, commencing on October 30, 2020 through the earlier of our consummation of a Business Combination and our liquidation, to reimburse our Sponsor a total of \$10,000 per month for office space, secretarial and administrative services.

Risks and Uncertainties

On January 30, 2020, the World Health Organization announced a global health emergency because of a new strain of coronavirus (the “COVID-19 outbreak”). In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve. The impact of the COVID-19 outbreak on the Company’s results of operations, financial position and cash flows will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions. These developments and the impact of the COVID-19 outbreak on the financial markets and the overall economy are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Company’s results of operations, financial position and cash flows may be materially adversely affected. Additionally, the Company’s ability to complete an Initial Business Combination may be materially adversely affected due to significant governmental measures being implemented to contain the COVID-19 outbreak or treat its impact, including travel restrictions, the shutdown of businesses and quarantines, among others, which may limit the Company’s ability to have meetings with potential investors or affect the ability of a potential target company’s personnel, vendors and service providers to negotiate and consummate an Initial Business Combination in a timely manner. The Company’s ability to consummate an Initial Business Combination may also be dependent on the ability to raise additional equity and debt financing, which may be impacted by the COVID-19 outbreak and the resulting market downturn.

Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. The Company has identified the following as its critical accounting policies:

Net Income (Loss) per Ordinary Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, “*Earnings Per Share*.” Net income (loss) per share is computed by dividing net income (loss) by the weighted-average number of ordinary shares outstanding during the period. The Company applies the two-class method in calculating earnings per share. Remeasurement adjustments associated with the redeemable shares of Class ordinary shares are excluded from earnings per share as the redemption value approximates fair value. The Company has not considered the effect of the warrants sold in the initial Public Offering and Private Placement in the calculation of diluted income or loss per share, since the inclusion of such warrants would be anti-dilutive.

Warrant Liabilities

We account for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own common stock, among other conditions for equity classification. This assessment is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

In accordance with Accounting Standards Codification ("ASC") 815-40, Derivatives and Hedging—Contracts in Entity's Own Equity ("ASC 815"), the warrants do not meet the criteria for equity classification and must be recorded as liabilities. The Public Warrants and Private Placement Warrants are not indexed to the Company's own stock and therefore are accounted for as liabilities and, as the warrants meet the definition of a derivative as contemplated in ASC 815, the Warrants are measured at fair value at inception and at each reporting date in accordance with ASC 820, *Fair Value Measurement*, with changes in fair value recognized in the Statement of Operations in the period of change.

Our warrant agreements, dated as of October 27, 2020, between the Company and Continental Stock Transfer & Trust Company, a New York corporation, as warrant agent (the "Warrant Agreement"), include settlement terms and provision related to certain tender offers following a business combination. In consideration of the guidance in Accounting Standards Codification ("ASC") 815-40, Derivatives and Hedging — Contracts in Entity's Own Equity, we have concluded that such provisions in the Warrant Agreement that relate to certain tender or exchange offers precludes the Warrants from being accounted for as components of equity. As the Warrants meet the definition of a derivative as contemplated in ASC 815, the Warrants are recorded as derivative liabilities on the balance sheet and measured at fair value at each reporting date in accordance with ASC 820, Fair Value Measurement, with changes in fair value recognized in the statement of operations in the period of change. The Public Warrants and Private Placement Warrants are not indexed to the Company's own stock and therefore are accounted for as liabilities and, as the warrants meet the definition of a derivative as contemplated in ASC 815 *Fair Value Measurement*, with changes in fair value recognized in the Statement of Operations in the period of change.

Offering Costs

We comply with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin ("SAB") Topic 5A - Expenses of Offering. Offering costs consist principally of professional and registration fees incurred through the date of the offering. Offering costs are charged to the statement of operations and temporary equity based on the relative value of the Class A common stock and the Public Warrants to the proceeds received from the Units sold upon the completion of the IPO. Accordingly, as of December 31, 2020, the Company had recognized aggregate offering costs of \$33,103,735, consisting of \$12,150,000 of underwriting fees, \$21,262,500 of deferred underwriting fees, \$906,235 of other offering costs, and an expense reimbursement of \$1,215,000, of which \$2,006,624 was immediately expensed, and remaining was charged to temporary equity.

Class A Ordinary Shares Subject to Possible Redemption

We account for our Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity." Under this guidance, shares of Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Shares of conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. Our Class A ordinary shares features certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, Class A ordinary shares subject to possible redemption is presented as temporary equity, outside of the shareholders' equity section of our condensed balance sheets.

[Table of Contents](#)

All of the 60,750,000 Public Shares contain a redemption feature which allows for the redemption of Class A ordinary shares under our liquidation or tender offer/shareholder approval provisions. In accordance with FASB ASC 480, redemption provisions not solely within our control require the security to be classified outside of shareholders' equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of FASB ASC 480. In the event of redemptions, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

Accordingly, at September 30, 2021, 60,750,000 shares of Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of our balance sheet.

Off-Balance Sheet Arrangements

As of September 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As such, our financial statements may not be comparable to companies that comply with public company effective dates.

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2021, we were not subject to any market or interest rate risk. Following the consummation of our Initial Public Offering, the net proceeds of our Initial Public Offering, including amounts in the Trust Account, were invested in U.S. government treasury bills, notes or bonds or in certain money market funds that invest solely in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

We have not engaged in any hedging activities since our inception and we do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

[Table of Contents](#)

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the quarter ended September 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this report, our disclosure controls and procedures were not effective, due to the material weakness in our internal control over financial reporting as described in our Annual Report on Form 10-K/A for the year ended December 31, 2020, as filed on May 25, 2021, and due to a material weakness in internal control over financial reporting which resulted in the restatement described in Note 2 of this filing.

In connection with the restatement discussed in Note 2 of this filing, the company's management reassessed the effectiveness of its disclosure controls and procedures for the periods affected by the restatement. As a result of that reassessment, the company's management determined that its disclosure controls and procedures for such periods were not effective with respect to the classification of the company's Class A ordinary shares subject to redemption.

Changes in Internal Control Over Financial Reporting

During the fourth quarter of 2021, our management began reviewing and revising the design of our controls and procedures over our accounting for derivative liabilities and equity treatment of Class A Common Stock. Contemplated enhancements include implementation of additional procedures related to documentation of our management's evaluation of the facts and circumstances supporting its judgments and conclusions surrounding our accounting for derivative liabilities and equity treatment of Class A Common Stock as well as consultation with third-party accounting and valuation experts with relevant knowledge and experience to assist our management with its evaluation of our accounting for such items.

In light of the previously noted material weakness, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Quarterly Report on Form 10-Q present fairly in all material respects our financial position, results of operations and cash flows for the period presented.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Part I., Item 1A., Risk Factors, of our Amended Annual Report filed on May 24, 2021, for the year ended December 31, 2020.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds from Registered Securities

Unregistered Sales

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

CERTIFICATIONS

I, C. John Wilder, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Bluescape Opportunities Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
